

CONGRESS IS AN ORGANIZED CRIME SYNDICATE ACCORDING TO 90% OF THE VOTERS

[To the outsider, Congress looks like an organized crime syndication of evil people, serving other evil people, and Americans appear as a helpless audience. \(politics\)](#)

I wonder at what point Americans will get fed up and lose their minds? America is a powder keg of explosive citizen vs government violence just waiting to happen.

It IS, the only law is the law of force. If another crime syndicate had the monopoly on force we would be obeying their rules and calling it "justice".

More like corporate and Jewish appointed stooges... Thats all congress really is. And are they not so happy right now.. No one is looking at them while they bankrupt the country.. Everybody is looking at the nfl, antifa, faggot issues etc.. While these fucking criminals keep getting reflected at a 98 percent clip!
