Silicon Valley billionaires are known for their arrogance, misogyny and their unfathomable need to try to control politics. Silicon Valley tech oligarchs Eric Schmidt and Gilman Louie created a private spy agency called “In-Q-Tel” with the premise of “getting Millennial kids to do the work that the Pentagon can’t do..”; per the In-Q-Tel pitch.

In fact, In-Q-Tel, New America Foundation and a host of other CIA-like domestic clones funded and steered by Eric Schmidt, are nothing more than political contract manipulation facades.

The real CIA and NSA think that Schmidt’s Machiavellian little spy pop-ups “give the intelligence community a bad name”.
